Grange Junior School

Cycling to School

Children wishing to cycle to school are encouraged to do so, but the following simple rules must be followed:

1. Parents must ensure that the bicycle to be used is, at all times, roadworthy and safe to use.

2. Bicycles must be the right size for the child.

3. We strongly recommend that cycle helmets should be worn.

4. Children are not permitted to cycle inside the school grounds.

5. Bicycles should be stored in the cycle shelter and secured with a suitable lock.

6. The school will not be responsible for damage or loss – parents are at all times responsible for the safety and security of their children and bicycles.

7. Parents must assess whether their children have the necessary ability to ride to school safely. If the school finds that children are unable to do so, we will notify parents to let them know and these children will no longer be able to ride their bicycles to school.
